### Cushion Options

Plush

The Plush cushion package is the standard offering in the My Style program.

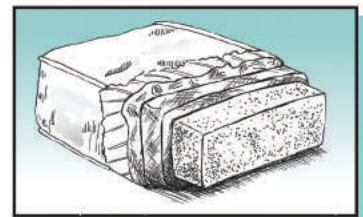

The seat cushions are made from Ultracell high resiliency foam, which offers you a soft initial feel with a supportive seat. What separates this cushion from the others is the outer jacket, which is sewn in a channeled fabric casing and filled with generous amounts of fine silky micro-denier polyester fibers. This allows you to have all the comfort you desire, but still supportive for everyday use.

Firm

If you need more support then our Firm cushion package is the right choice.

Our firm seat cushions are made with a high resiliency polyurethane foam core wrapped with a layer of soft polyester fiber. High resiliency foam is important because it delivers the right amount of support, sink-in comfort and bounce-back. The polyester wrap provides surface comfort and shape. The cushions are encased in a fabric ticking to create extra support.

Feather Soft

Are you the type that likes to curl-up and settle into your furniture?

Then we recommend the Feather Soft cushion package. This is a comfortable feather, down blend seat cushion. In the middle of the cushion is a high resiliency foam core with a soft foam wrap for support. Then the foam core is inserted into a channel quilted down proof casing filled with a blend of down, feathers and polyester fiber.
